

RODEL LALAGUNA

SENIOR DEVELOPER 📍 CALAMBA, 4027, PHILIPPINES

🌐 <https://rodelsuvalalaguna.github.io/portfolio-site/>

◦ DETAILS ◦

Calamba, 4027

Philippines

+639457512398

rodel.s.lalaguna@gmail.com

Date / Place of birth

July 25, 1991

Arayat, Pampanga

Nationality

Filipino

◦ SKILLS ◦

Ability to Multitask

Ability to Work in a Team

Ability to Work Under Pressure

Software Troubleshooting

Adaptability

ASP.NET C#, MVC 5, Core,

SQL, SSIS, Web API, Rest

Service, AngularJS, ReactJS, NextJS,

Tailwind, Aceternity UI, Sentry,

Azure DevOps, TFS, GIT, XML, XSLT,

JSON, Postman, SoapUI, Swagger,

Powershell, Power Automate,

ADO.NET, Entity Framework, Azure

Function, JQuery, Javascript,

Typescript, LINQ, NUnit, GIT,

Cosmo DB

SOLID, OOP, WET, DRY, KISS,

YAGNI, MVP, MVC, TDD

Microservices and Monolithic

HOBBIES

Currently, I'm spending my spare time exploring Azure DevOps and React, with plans to delve into AI automation next

PROFILE

Experienced software developer with 10+ years in .NET C# development, SQL database management, and SSIS integration. Skilled in GIT, TFS, XML, and XSLT for data transformation, with a focus on delivering high-quality, robust solutions.

EMPLOYMENT HISTORY

Senior Analyst Programmer at Essilor Luxottica, Muntinlupa City

August 2023 — Present

Customer Financial Management Evolution (CFM Evolution) is a web-based invoicing platform that allows users to oversee contracts and establish criteria for offering discounts or bonuses to individual customers or groups.

- Developed applications using C#, MVC 5, .NET Framework 4.6.1 and 4.8, JQuery, BizTalk 2016, SQL Server 2016 and 2018, WCF, IIS 7.0, WPF, TFS Git, and SSIS.
- Generated reports with XML and XSLT; managed deployment and regression testing in development and qualification environments.
- Created delivery packages including MSI installers, DacPac, installation guides, release notes, and unit tests.
- Developed automated solutions using Power Automate and PowerShell to reduce manual effort and improve efficiency.
- Optimized SQL scripts and managed database permissions.
- Conducted integration testing to ensure seamless interaction between modules.
- Performed integration testing to validate end-to-end functionality.

Senior Application Support (Freelance) at Alloc8, Remote (AUS)

June 2023 — August 2024

- Handled Development and Support.
- Built dynamic, real-time web applications using Angular, C#, SignalR, Redis, Cosmos DB, SQL Server, and Azure DevOps for seamless performance and scalability.

Senior Application Developer at WSP USA Solutions Inc., Remote

June 2022 — August 2023

Handled Integrated Approval System and Forecaster, these are robust applications designed to streamline the creation of proposals and bids for a wide range of private and government projects

- Tools: MVC Core, ReactJS, AngularJS, Typescript, Javascript, REST API, SSIS, MSSQL, Azure DevOps, Git, Github, Azure Function, Logic App, SendGrid, WebJobs.

Senior Software Engineer at ATOS SYTEL PHILIPPINES, Pasay City

January 2021 — May 2022

Managing various web and console applications used for overseeing Disney's assets.

- Tools are ASP.NET MVC, C#, Core, Angular JS, SQL, CISCO COMMAND, AGILE, SVN
- Focus on Development and Bug fixes

Senior Analyst Programmer at Essilor Shared Services , Muntinlupa City

2017 — May 2021

Customer Financial Management (CFM V3) is an invoicing application widely used in Europe.

- Built with C#, .NET Framework 2.0/3.5, SharePoint 2007, BizTalk 2006, SQL Server 2008, Classic Web Service, IIS 6.0, Python 2.7, and TFVC.
- Streamlined scripting processes and built dynamic reports using XML and XSLT.
- Handled application deployment for regression testing, issue resolution, and post-release support.
- Led weekly status updates with counterparts in France.

Customer Financial Management Evolution (CFM Evolution) is the enhanced version of CFM V3.

- Built with C#, MVC 5, .NET Framework 4.6.1, jQuery, BizTalk 2016, SQL Server 2016, WCF, IIS 7.0, WPF, TFS and Git.
- Also involved in troubleshooting, supporting applications, and leading weekly status updates with counterparts in France.

.Net Developer at Smart Communications Inc., Makati City

November 2012 — May 2017

Online Purchase and Inventory System (OPIS) is a web-based platform used by Smart Telecom dealers to purchase load, manage customer profiles and distribution networks, and track sales through daily, weekly, and monthly reports.

- Designed prototypes, developed functional applications, and collaborated with the team to align on project requirements, system specifications, and timelines.
- Developed and optimized SQL queries, including stored procedures, views, triggers, functions, table structures and index.
- Performed comprehensive regression testing with Test Analysts prior to production deployment to validate system integration and functionality.
- Delivered projects on schedule and offered continuous production support to ensure seamless user experience.
- Provided design and issue resolution support to the team, participated in SAT and UAT activities, and created detailed UT and VCU documentation.
- Authored end-user documentation and provided consistent status updates to supervisors via weekly reports.

EDUCATION

Bachelor of Science in Computer Science, STI College, Muntinlupa City

June 2008 — May 2012
