RODEL LALAGUNA

SENIOR DEVELOPER ⚲ CALAMBA, 4027, PHILIPPINES ☏ +639457512398

⚬ DETAILS ⚬

Calamba, 4027
Philippines
+639457512398
rodel.s.lalaguna@gmail.com

Date / Place of birth
July 25, 1991
Arayat, Pampanga

Nationality
Filipino

⚬ SKILLS ⚬

Ability to Multitask

Ability to Work in a Team

Ability to Work Under Pressure

Software Troubleshooting

Adaptability

ASP.NET C#, MVC 5, Core, SQL, SSIS, Web API, Rest Service, AngularJS, ReactJS, Azure Devops, TFS, GIT, XML, XSLT, JSON, Postman, SoapUI, Swagger, Powershell, Power Automate, ADO.NET, Entity Framework, Azure Function, JQuery, Javascript, Typescript, LINQ, NUnit, GIT, Cosmo DB

SOLID, OOP, WET, DRY, KISS, YAGNI, MVP, MVC, TDD

Microservices and Monolithic

⚬ HOBBIES ⚬

Cloud Computing and Microsoft Azure: Actively studying Azure Cloud technologies and preparing for the Microsoft Certified: Azure Fundamentals exam. Engaged in continuous learning to deepen my understanding of cloud solutions and stay current with industry advancements.

PROFILE

Experienced software developer with 10+ years in .NET C# development, SQL database management, and SSIS integration. Skilled in GIT, TFS, XML, and XSLT for data transformation, with a focus on delivering high-quality, robust solutions.

EMPLOYMENT HISTORY

Senior Analyst Programmer / L2 Support at Essilor Luxottica, Muntinlupa City
August 2023 — Present

Customer Financial Management Evolution (CFM Evolution) is a web-based invoicing platform that allows users to oversee contracts and establish criteria for offering discounts or bonuses to individual customers or groups.

- Developed applications using C#, MVC 5, .NET Framework 4.6.1, JQuery, BizTalk 2016, SQL Server 2016, WCF, IIS 7.0, WPF, TFS Git, and SSIS.
- Generated reports with XML and XSLT; managed deployment and regression testing in development and qualification environments.
- Created delivery packages including MSI installers, DacPac, installation guides, release notes, and unit tests.
- Provided troubleshooting and support for applications within the group; automated processes using PowerAutomate and PowerShell.
- Addressed user issues through email and ticketing systems; optimized SQL scripts and managed database permissions.
- Conducted integration testing.

Senior Application Developer at WSP USA Solutions Inc., Remote
June 2022 — August 2023

Integrated Approval System and Forecaster are applications that enable users to create proposals and bids for various private and government projects

- Tools: MVC Core, ReactJS, Typescript, Javascript, REST API, SSIS, MSSQL, Azure Devops, Git, Github, Azure Function, Logic App, SendGrid, WebJobs, SSIS Daily Task: Development and Production Support

Senior Software Engineer at ATOS SYTEL PHILIPPINES , Pasay City
January 2021 — May 2022

Managing various web and console applications used for overseeing Disney's assets.

- Tools are ASP.NET MVC, C#, Core, Angular JS, SQL, CISCO COMMAND, AGILE, SVN
- Focus on Development and Bug fixes

Senior Analyst Programmer at Essilor Shared Services , Muntinlupa City
2017 — May 2021

Customer Financial Management (CFM V3) is an invoicing application widely used in Europe.

- Developed with C#, .NET Framework 2.0/3.5, SharePoint 2007, BizTalk 2006, SQL Server 2008, Classic Web Service, IIS 6.0, Python 2.7, and TFVC.

- Involved in creating and optimizing scripts, generating reports using XML and XSLT.
- Deploying applications for full regression testing, troubleshooting, and providing support.
- Led weekly status updates with counterparts in France.

Customer Financial Management Evolution (CFM Evolution) is the enhanced version of CFM V3.

- Developed using C#, MVC 5, .NET Framework 4.6.1, JQuery, BizTalk 2016, SQL Server 2016, WCF, IIS 7.0, WPF, TFS and Git.
- Responsibilities included creating reports with XML and XSLT, deploying applications for regression testing, and preparing delivery packages (MSI installers, DacPac, installation guides, release notes, and unit tests).
- Also involved in troubleshooting, supporting applications, and leading weekly status updates with counterparts in France.

.Net Developer at Smart Communications Inc., Makati City
November 2012 — May 2017

Online Purchase and Inventory System (OPIS) is an online ordering platform utilized by Smart telecom dealers to buy load from Smart, manage customer profiles and distribution networks, and access daily, weekly, and monthly sales reports.

- Developed and presented functional programs, designed prototypes, and coordinated with the team on project requirements, system needs, and timelines.
- Created and optimized SQL queries, including stored procedures, views, triggers, functions, and tables.
- Conducted full system regression testing with Test Analysts before production deployment to ensure system integration and functionality.
- Ensured project delivery within the agreed timeline and provided round-the-clock production support to end-users.
- Assisted team members with design and issue resolution, supported SAT and UAT phases, and created unit test (UT) and validation check unit (VCU) documents.
- Authored user manuals and provided weekly reports to supervisors.

EDUCATION

Bachelor of Science in Computer Science, STI College, Muntinlupa City
June 2008 — May 2012
